

KAVYA REDDY

Northlake, TX | +1(248) 934-6880 | kavyareddy1417@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

- Certified Scrum Master with 8 years of experience supporting Agile delivery, business analysis, release coordination, UAT, reporting, and process improvement across travel technology, healthcare, legal, finance, IT, and operations teams.
- Experienced in helping cross-functional teams stay organized through sprint planning, backlog refinement, blocker removal, release readiness, and clear communication between business and technical stakeholders.
- Strong background in translating business needs into user stories, acceptance criteria, workflows, dashboards, and UAT scenarios that help teams deliver cleaner handoffs and better execution.
- Skilled at managing delivery risks, dependencies, RAID logs, milestone tracking, Agile metrics, KPI reporting, and service workflows, giving leadership practical visibility into project health, release progress, and operational priorities.
- Known for bringing structure to fast-moving teams, supporting smoother go-lives, strengthening stakeholder alignment, and helping teams improve delivery consistency across Scrum, Kanban, BI reporting, and operations environments.

TECHNICAL SKILLS

Agile & Scrum Delivery: Scrum, Kanban, Sprint Planning, Daily Standups, Sprint Reviews, Retrospectives, Backlog Refinement, Scrum of Scrums, Impediment Removal, Capacity Planning, Velocity Tracking, Burndown Charts, Cycle Time, Agile Coaching

Delivery & Release Management: Delivery Coordination, Release Planning, UAT Coordination, Production Deployment Support, Hypercare Support, RAID Logs, Risk Tracking, Issue Tracking, Dependency Management, Milestone Tracking, Change Management, Vendor Coordination, Executive Reporting

Business Analysis & Product Support: Requirements Gathering, Stakeholder Workshops, User Stories, Acceptance Criteria, Process Mapping, Workflow Analysis, Gap Analysis, Backlog Prioritization, Product Owner Support, RACI Mapping, UAT Test Scenarios

BI, Reporting & Analytics: SQL, Power BI, Tableau, Power Query, Excel, KPI Reporting, Operational Dashboards, Executive Dashboards, Agile Metrics Reporting, SLA Reporting, Trend Analysis, Root Cause Analysis, Data Validation, Data Quality Review, Ad Hoc Reporting, Data Visualization

Enterprise & Project Management Tools: Jira, Rally, Confluence, ServiceNow, SharePoint, Excel, Power BI, Tableau, DocuSign CLM, DocuSign DocuGen, Salesforce CPQ, Salesforce

Workflow, CLM & AI Skills: Contract Lifecycle Management, Workflow Automation, Approval Workflow Design, Access Request Management, Incident Tracking, SLA Monitoring, AI-Assisted Workflow Design, Generative AI Fundamentals

PROFESSIONAL EXPERIENCE

Senior Scrum Master

Aug 2022 - Feb 2026

Sabre Corporation | Southlake, TX

- Established Scrum delivery for Sabre's Legal and Finance CLM transformation by creating Jira/Rally boards, sprint cadence, backlog refinement, and Confluence documentation, enabling predictable delivery across 4 DocuSign CLM implementations.
- Guided cross-functional teams across Legal, Sales, Finance, IT, QA, DocuSign, Salesforce, and vendor groups through Scrum ceremonies, strengthening sprint visibility and delivery alignment.
- Turned Salesforce CPQ, legal review, financial approval, and contract workflow needs into user stories, acceptance criteria, process maps, and UAT test scenarios, closing requirement gaps during CLM delivery.
- Managed 4 concurrent \$2M+ DocuSign CLM initiatives using Jira, Rally, RAID Logs, milestone tracking, and executive reporting to control scope, risks, dependencies, and release readiness.
- Aligned Legal, Finance, IT, Salesforce, DocuSign, and vendor workstreams through Scrum of Scrums, release planning, dependency management, and change management, keeping phased CLM go-live activities on track.
- Owned UAT coordination, stakeholder workshops, production deployment, and hypercare support across Legal, Sales, Finance, and IT, supporting stable go-lives and smoother post-release adoption.
- Built delivery dashboards in Excel, Power BI, and Tableau with velocity tracking, burndown charts, cycle time, SLA reporting, and UAT progress, helping executives monitor sprint health and release readiness.
- Migrated 25,000+ legacy contracts from SharePoint into DocuSign CLM by coordinating data validation, access request management, workflow analysis, and approval workflow design, creating a governed contract repository.
- Integrated Salesforce CPQ with DocuSign DocuGen templates through workflow automation, acceptance criteria, UAT scenarios, and stakeholder validation, reducing contract generation errors by approximately 40%.
- Strengthened ServiceNow access request delivery by applying incident tracking, SLA monitoring, approval workflows, and risk tracking, reducing support workload by 30–40% while maintaining 95% SLA adherence across 250+ requests.

Scrum Master

Mar 2020 - Jul 2022

Infowave Systems | Client: UHG Optum | Remote

- Steered Scrum delivery for Optum performance engineering teams using Jira, Rally, Sprint Planning, Daily Standups, Reviews, and Retrospectives, keeping engineering, testing, infrastructure, and release teams aligned across sprint commitments.
- Shaped sprint backlogs through backlog refinement, capacity planning, and impediment removal, allowing teams to balance performance testing, UAT coordination, defect follow-up, and production deployment timelines.
- Synchronized Dev, QA, Infrastructure, and Performance Engineering handoffs with issue tracking, dependency management, and milestone tracking, cutting late release blockers by 30% during validation cycles.
- Distilled response-time trends, defect risks, SLA reporting, and system readiness data into Excel, Power BI, and Tableau dashboards, giving leaders clearer go/no-go visibility before production windows.
- Partnered with Product Owners and QA Leads on user stories, acceptance criteria, and UAT test scenarios, shortening requirement clarification cycles by 25% during release readiness reviews.
- Built sprint health reporting around velocity tracking, burndown charts, cycle time, Agile metrics, and executive reporting, raising leadership visibility into open risks, team progress, and deployment readiness.

- Triaged ServiceNow intake for release-blocking issues through Kanban, incident tracking, SLA monitoring, and risk tracking, decreasing escalation delays by 30% during peak release cycles.
- Turned recurring Retrospective themes around environment issues, test-data delays, and defect handoffs into backlog actions, lowering repeat sprint disruptions by 20% across future delivery cycles.

Business Analyst

Feb 2018 - Jan 2020

Kellogg's | Battle Creek, MI

- Mapped workforce onboarding needs across multiple Asian countries through Requirements Gathering, Stakeholder Workshops, Excel, and SharePoint, giving HR, IT, vendors, and project teams clearer execution steps.
- Streamlined contract documentation, access request management, and offboarding workflows with Process Mapping and Workflow Analysis, cutting manual follow-ups by 25% across regional support teams.
- Built Excel and SharePoint trackers for joining status, pending documents, access requests, vendor actions, and offboarding closure, giving managers faster visibility into workforce readiness.
- Coordinated recruitment, HR, IT, finance, and vendor handoffs using Milestone Tracking, Vendor Coordination, and Change Management, helping new project hires complete access and documentation before start dates.
- Analyzed onboarding delays, access gaps, documentation errors, and vendor response trends with KPI Reporting and Root Cause Analysis, decreasing repeat process delays by 20%.
- Validated employee records, contract files, access completion, and compliance documents through Data Validation and Data Quality Review, raising audit readiness across onboarding and offboarding records.
- Created weekly status reports and stakeholder update templates in Excel and SharePoint, accelerating workforce reporting by 30% for project managers and operations leaders.
- Standardized tracker ownership, escalation paths, reporting cadence, and change communication through Gap Analysis and Workflow Analysis, boosting coordination between HR, IT, vendors, and delivery teams.

PROJECTS

Agile Release Readiness & Performance Reporting Dashboard

- Consolidated Jira, Rally, and ServiceNow updates with SQL, KPI Reporting, Incident Tracking, and Risk Tracking, giving leaders a clearer view of open blockers before production deployment windows.
- Partnered with Dev, QA, Infrastructure, and release teams through UAT Coordination, Dependency Management, and Executive Reporting, boosting confidence in go/no-go decisions across release cycles.
- Built release readiness dashboards using Power BI, Tableau, Excel, Agile Metrics, and SLA Reporting, helping healthcare technology teams track sprint health, defect status, UAT progress, and deployment readiness.

AI-Assisted Agile Workflow & BI Reporting Prototype

- Created an AI-Assisted Workflow Design concept for Agile delivery reporting, using Jira, ServiceNow, Excel, and Generative AI Fundamentals to draft sprint risks, backlog themes, and stakeholder updates.
- Designed Power BI and Tableau dashboard layouts for Velocity Tracking, Burndown Charts, Cycle Time, SLA Monitoring, Incident Tracking, and UAT readiness, aligning Agile data with BI reporting needs.
- Connected Agile Metrics, KPI Reporting, Data Visualization, and Executive Dashboards into a reusable reporting model, giving Scrum, Delivery, Product, and Operations teams faster insight into delivery health.

EDUCATION

Master of Science in Management Information Systems

Aug 2016 - Sep 2017

University of Michigan | Dearborn, MI

Bachelor of Engineering in Mechanical Engineering

Jul 2010 - Jul 2014

KSRM College of Engineering | India

CERTIFICATIONS

- Certified ScrumMaster (CSM) - **Scrum Alliance**
- Professional Scrum Master I (PSM I) - **Scrum.org**
- IBM AI Product Manager Professional Certificate - **Coursera**
- Generative AI Engineering Professional Certificate - **Coursera**
- Project Management Professional (PMP)
